Easily prepare, segment and trim vegetables, fruit and lettuce prior to further processing

With this trimming table, four people can simultaneously clean and prepare products for further processing steps. The mobile table has four removable cutting boards and two waste chutes for easy waste disposal. It simplifies the trimming and segmenting of lettuce, fruit and vegetables. The open stainless steel construction is very easy to clean.

The trimming table is available in different versions: for one, four, six, eight or ten people.

Benefits

Ergonomic working height

Thanks to the height adjustment, the table enables an ergonomic working height.

Optimally adapted for connection to belt cutting machines

The trimming table is ideal for connection to a belt cutting machine, in which the prepared products are then cut. It can, however, also be used individually or for preparing products for processing in other machines.
