

## DELIVERING SIZE REDUCTION SOLUTIONS TO TARGETED MARKETS

Urschel's reputation as the global leader in food cutting technology is universally recognized. Outside of the food processing arena, Urschel machinery is also extensively proven in industries both related and unrelated to food processing. The Comitrol® Processor Line delivers precision, high capacity reductions through cleanly, incrementally shearing input material.

Featured Reductions (left to right): Curcugel Gelatin Slurry, Polymer, Rework of Gelatin Capsules, Rubber Flooring, Collagen, Chewable Tablets, Benzoyl Peroxide, and Clay-based Grease.

Contact Urschel for a free-of-charge test-cut of your product to see how we can assist you with your targeted size reduction needs.
