

URSCHEL® MODEL CCX-D

HIGH CAPACITY VERSATILE SHREDDER, SLICER, & STRIP CUTTER

The Model CCX-D Shredder (MCCXD) features a large 32" (813 mm) diameter cutting zone. This large cutting zone combined with the 10 horsepower motor promotes a higher capacity and lessens product build-up. The machine is also available with a 24" (610 mm) diameter cutting enclosure. **New 2-piece enclosure allows easy access for complete cleaning and maintenance.** The versatile CCX-D features interchangeable quick locking double ring, single adjustment cutting heads enabling the changeover to different cuts in just minutes. Specially designed knives do not require sharpening, and are inexpensive to replace. To promote sanitation, the machine features an attached swingaway feed hopper, hinged access panels, sloped surfaces, and stainless steel highly polished to U.S.D.A., Dairy Division accepted standards. The machine features continuous operation for uninterrupted production, and is designed for easy clean-up and maintenance. The Model CCX-D will accept products measuring up to 3-1/2" (88.9 mm) in any dimension.
